

## List of Tables

2.1	Eluted solvents for TLC	38
2.2	Application of reagents in TLC	38
3.1	Parameters of HPLC system to fractions	47
3.2	Results of bioassays	48
3.3	Parameters of second chromatography	50
3.4	UV maximum of fraction 3.1.0, 3.1.1 and 3.1.2	51
3.5	Results of bioassays	52
3.6	UV maximum of eluted fractions in third Chromatography	53
3.7	Results of bioassays of fraction 3.1.1.1 and 3.1.1.2	53
3.8	Gel chromatographic parameters	54
3.9	Bioassay results and UV maximum of eluted fraction G1 and G2	55
3.10	Re-chromatography with Waters instrument	57
3.11	Purity check of pheromone sample	58
3.12	Results of TLC purity check of pheromone sample	59
3.13	UV data of some purine compounds	64
3.14	UV data of some pterin compounds	65
3.15	UV data of isoxanthopterin and pheromone substance	66
3.16	Results of bioassays	76
3.17	UV data of adenosine, inosine and fraction G1	81
3.18	Bioassay results of related substances	85
